

NIMOFR..C, CMB24..D Actuators

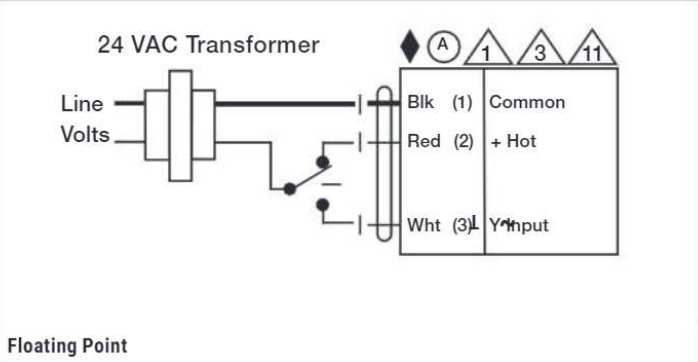

NIMOFR...C, CMB24..D Actuators

Wiring Diagrams

On/Off

Floating Point

Notes:

- ◆ Meets cULus requirements without the need of an electrical ground connection.
- Ⓐ Actuators with appliance cables are numbered.
- ⚠ Provide overload protection and disconnect as required.
- ⚠ Actuators may also be powered by 24 VDC.
- ⚠ Actuators may be connected in parallel if not mechanically mounted to the same shaft. Power consumption and input impedance must be observed.
